Merle's School Fair Wonderful Success

The School Fair of the Royal Municipality of Marquis, held in Queenstown U.P.A., Hall at Milo, was voted the best held in the district and a great success in every way. The weather man smiled on the large crowd and the exhibits, and the weather was a revelation to all.

Great credit is due the teachers and parents and to all patrons for their interest and assistance and for the friendly competitive spirit manifested. The school fair of such a fair to the boys and girls cannot be estimated, and a solid foundation is being laid for a most satisfactory agricultural fair in the future.

Nearly one thousand extra were made outside of school competition-speaking and singing contests, sports. Two hundred and forty-three children took part from twelve schools and prizes in cash with value to \$50.

The public speaking contest deserves special mention. The subjects chosen and the manner in which they were handled are a fine indication of the future and the progress that is being made.

Little Blue gave a dress on high education's and the re-objection of an ideal. Mr. Hooper, principal of the School of Agriculture at Clarenceville and G. A. Richardson of two of the judges, were present. The able address of G. A. Richardson, the president of the School of the School of Agriculture at Gleichen, was very much appreciated.

A short exhibition in folk dancing by the Queenstown Girls Club completed the program and a very profitable and enjoyable day.

The shield was won by Berrywater School with 535 points, and Palmer and Mayfield schools were second.

The cup for the highest individual aggregate of points was won by Helen Buse of Pioneer. Splendid work was done by Hazel Carr, Louis Richardson, Wm. Wainwright, Violet Moyer, Lawrence Monson and many others.

In athletics the cup was won by Robert Shire of Corby Hill with Herman Horrie second and W. Burke third.

Semi-Jubilee

Mademoiselle of Armenia Here Monday, Oct. 24

The Gleichen Branch of the Canadian Branch of the 10th anniversary on Sunday last, when the Rev. H. D. Marr, the district secretary, presided in Andrew's Church in the morning, at Cluny in the afternoon and Union Church in the evening. The various congregations were well represented and the services were conducted with interest and informing addresses. At Cluny where there was a large gathering they decided to form a branch of their own and appointed officers and collectors forthwith. It is expected that the branch will be organized at the public meeting Friday night.

On Monday afternoon Mr. Marr gathered a few friends and collectors at a social gathering at the secretary's residence, when he delivered a very helpful address, and helped towards the preparing of a nomination list of officers and collectors for the meeting at the church on Friday evening.

These addresses cannot fail to create a splendid atmosphere for a 10th anniversary gathering.

A very cordial invitation is extended to all to attend the meeting at 8 o'clock.

Quellette News

A very successful entertainment

luncheon was held in the Meadowview school on Friday eve last and it was a great success. The building and grounds credit is due Louis LaPage and his able assistants, Miss Bell and Mrs. G. Anderson. The latter taking the time to keep the crowd hopping to it in a lively fashion until the noon hour. A very good time was had by all.

These ladies did their best, but we are not sure that they can thus assure the success of any future dances. There was ice cream, roasted peanuts and everything to indulge the appetite, not forgetting the excellent gourmets who dined midnight, when the school was still wide open and some to spare, the food being exceptionally good, but then no wonder, when it was cooked after so ably by Mrs. Gervais as usual.

G. A. Garland of Rumsey received the nomination as the Farmers candidate for Bow River constituency at the U.P.A. convention held in Calgary last Thursday. It is said personally he is very fine fellow who can be depended upon to be fair and reasonable, and although not the man the head officials expected to receive the nomination, we have yet to hear of an ill word spoken against Mr. Garland personally. Thus it would appear he will fight his campaign on the issues advanced by the Farmers party and not indulge in personalities which, if right, will be a good thing for all concerned. Let us hope so.

Evidently there was no lack of candidates for the honor of representing this constituency, fourteen allowing their names to go before the convention, but eleven being eliminated, the last vote was between three and resulted as follows:

E. J. Garland of Rumsey 178
W. H. Hiati of Rockycroft 90
W. D. Trego of Calgary 85

John C. Buckley, M.L.A., of Gleichen, was chairman of the convention, at which there were 386 delegates present, and it is said some of the candidates put up a strong fight for the nomination.

The other candidates were: L. P. Schooling of Standard, D. Vulcan of Vulcan, John Ghamback of Queenstown, B. Ashe of Goose Pine, Mrs. J. J. Miller of Huxley, H. W. Leonard of Tudor, P. J. Rock of Morin, J. Higginbotham of Lone Butte, M. H. Ward of Gleichen, Col. C. W. Robison of Munson and Mrs. Punces of Stoneytail.

Much sympathy is expressed for Messrs. John Glambeck and W. D. Trego by their friends, and it hardly seems fair that the long years of work they have given to their Union that their efforts were not more suitably rewarded. Both gentlemen have written, talked and worked unceasingly to better the farmers' condition and just when they were prepared to make still greater sacrifices to have the opportunity swept away is, to say the least, very discouraging—but such is the fickleness of the world when considering politicians.

By a fortunate arrangement with the Canadian Power Farmer we are able to offer The Gleichen Call and the Canadian Power Farmer both for one year to same or different addresses, for \$2. This offer applies to all subscribers, old and new, who pay to the end of next year for The Call and supply us with the address they want the Canadian Power Farmer sent to. Most Call subscribers are paid up to the end of this year, and by sending us \$2 now you will receive The Call and the Canadian Power Farmer free to the end of next year.

The Canadian Power Farmer, of Winnipeg, is an exceptionally good magazine, and is chiefly devoted to machinery in everyday use on the farm. You want the Call anyway, so get the two papers for the price of one. This offer holds good for but a short time, after which the two papers will cost \$3.00.

One week from tomorrow the Gleichen School of Agriculture opens for its second term and the question of finding boarding houses for all the boys and girls is again a live issue. Every good citizen is proud of our fine institution and should take sufficient interest to see the pupils are properly cared for. We fear Gleichen overlooked some excellent advertising last year in that more was not done to give these pupils a good time. Nothing can help a town more than to have a lot of young people scattered all over telling of what a good time they had a certain college, and nothing can hurt a place more than for them to go away and say the people paid little attention to us and the teachers were grouchy. Let us cheer them up and not leave it all to the rats!

John S. Mavor, president of the Bow River Liberal-Conservative Association, has called a convention at Bassano for next Saturday afternoon at three o'clock to nominate a candidate. All supporters of the National Liberal and Conservative Party are invited to attend. The names of Messrs. Purcell and Mavor are mentioned as likely to be nominated, and the open convention promises to be very interesting, as Mr. Mavor might well be expected to make a few remarks concerning the last convention. However, it is pretty certain Mr. Halliday will not be there to tell the story of "Five Happy Years at Ottawa". Who said "ping-pong"?

Irrigation Course at Gleichen Agri. School

This course in agriculture will begin at the Gleichen School of Agriculture on October 27th this year has an addition in a series of lectures upon irrigation. These lectures, together with practical irrigation work, will be conducted by Mr. Fletcher, who will be in charge of the course. Mr. Fletcher, will be in charge of the course. Mr. Fletcher, who comes to the School of Agriculture from the University of Colorado, where he obtained his training in irrigation engineering. Mr. Fletcher is a Canadian. A number of experiments with the Dominion Government, both experimental work and in the field.

The different phases of irrigation will be dealt with under the following subjects:

- 1. Irrigation in Canada.
- 2. Source of supply.
- 3. Terms of supply.
- 4. Irrigation implements.
- 5. Methods of application.
- 6. Time of application to various crops.

- 7. Location of farm work.
- 8. Measurement and measuring devices.

- 9. Experimental work and its application to the farmer:

- (a) Duty of water.
- (b) Seed production.
- (c) Soil conservation.

- 10. Relation to roads.
- 11. Relation to soil drifting.
- 12. Relation to alkali.

- 13. Relation to insect control.
- 14. Relation to the home and personal life of the farmer.

- 15. Crop and increased returns.
- 16. Irrigation lists.

- 17. Systems owned by corporations vs. farmers.

The irrigation work will be part of the regular five-month course in agriculture, which is conducted each year by the Provincial School of Agriculture.

A very large number of last year's first-year students will again register at the Agricultural School for their second year of study, and in due time point to a large attendance at the school this winter.

The people of Queenstown and Miles will be asked to extend a vote of thanks to the Arrowsmith Sunday School for the fine assistance and cooperation at their Sunday School rally.

The Queenstown residents were very pleased to see Mr. Burnes, who was especially appreciated. Also an address by a "stranger," who proved that he could show "how" as well as be shown.

We could wish that we might have more such gatherings, and the committee meeting at Lake McGregor some time ago, October 12th, to arrange for a second celebration of all the Sunday Schools at the Matilda municipality should be and we hope will be.

A very enjoyable evening was spent at the home of Mr. and Mrs. J. T. Robinson, where their first and second birthday were celebrated.

Children, grandchildren and relatives began to gather on Sunday, making the first surprise.

On Monday evening the Women's Institute met at a neighbour's and arrived in a body in the old-fashioned way in a real surprise party. The evening was spent in old-fashioned ways, with the singing of old time songs, old fashion games, "Put on Your Old Grey Bonnet," and the evening closed in the small hours with dainty refreshments.

The Institute had hoped to present Mr. and Mrs. Robinson with a twenty dollar gold piece, but as it was impossible to obtain one a purse of silver was decided to suffice for the purpose.

It is the desire of the members of the Institute to have a large and hearty gift for Mr. and Mrs. Robinson. We are told neither of them ever had a serious illness, and there are good prospects of their keeping their 70th or diamond wedding together. Nevertheless, we believe a few words of appreciation of their wonderful lives of service will be welcome.

Mr. and Mrs. Robinson have a strong local and is yet an active worker in the Sunday School. While Mr. Robinson does not take an active part in it, it is only by his cooperation in always taking Mrs. Robinson and helping her

that she is able to be of back service in the community. Salmon a chapter passes over now that Mr. and Mrs. Robinson drive their four miles with a horse and buggy to help keep the Sunday School. Mrs. Robinson has also been secretary of the Women's Institute ever since it was organized in 1912 and has given to her a number of hours that are not to be reckoned.

Mr. and Mrs. Robinson have had a long and useful life, and have a large family of children, grand-children and great-grand-children to make their declining years of the happiest; and we only hope there may be very many of them and the good health they have always enjoyed.

Population Of Two In Lonely Outpost At Findlay Forks

From what is probably one of the poorest districts of the Northwest, the Findlay Forks Trading Company, owned by Sherman, manager of the post at Findlay Forks, in the Peace River Pass, brings an interesting story of the country to the west.

Mr. Sherman, in addition to his duties in connection with the Indian for trade, is a mining recorder, post master and a general storekeeper. In the transaction of business in the particular section of the mountains where his post is located, he is the only man in the country except his wife, who is a widow, to reside there. The wife will never leave him, and the couple will before very long bear the fruit of the railway whistle, as the Peace Pass is the logical end for the line.

Going to Edmonton, the trader travelled out from his post via the trail and came into the country, which he has to the railway. Leaving Findlay Forks, the Payette River was taken for 100 miles, next came 17 miles on the North Fork of the Payette, then on a chain of lakes and waterways known collectively as the Clearwater River, which flows to the Snake River, the latter having at the Gleichen portage. From this point to Prince George there is a well made road connecting the two rivers, and the Canadian Government for a distance of 35 miles removes the portage with the building of the town.

From Prince George to Findlay Forks the railway via canoes is with the stream and section 5 days, the trail from the portage to the Peace River 11 or 12 are consumed in the voyage from the C.R.R. railway to the Peace River settlement.

The Findlay Forks post of the Northern Trading Company at Findlay Forks are the only sign of civilization at the present time, but during the winter there are no signs of independent miners at work on the hills in the mountain regions, washing out the more valuable minerals, and saving for the winter, some remaining in that district to run traps. This year there were about 100 men employed by the men who were engaged in mining operations with machinery, and some 200 men in traps.

There is silver gold and platinum to be had, 200 men are employed, and even using the crude tools of the Indians, the miners, the experience men were able to make wages, but it is a country in which a gopher can make a living.

About 200 Indians hunt in the vicinity of the Forks, these natives are of the Sioux and Cheyenne, and not very big, but very intelligent. They live entirely on a strict diet of meat and fish, and during the season kill large quantities of game.

When the natives come in to trade their furs it is the usual custom to purchase flour, beans and other articles of food, and to pay for them.

The climate on the whole is colder than that of the Edmonton district, due to the fact that the Forks is in the Climate, and the weather is much colder. Sherman remembers that thirty inches and the coldest thirty degrees below zero.

At Findlay Forks the post and in addition to the usual hardy northern vegetables, cabbages, green corn and other articles, there have been no traps set, but it is rare that they open. Usually seven or eight traps of each kind belonging to the post are set, and the traps are set in various places, and have been sprung successfully on the river flats, to feed them.

There are no traps set in the vicinity of the Forks, but the particular forming the principal field of the Indians. Each Indian has an acre or two of land, and the Indians are entitled to certain and other names. In the mountain regions there are plenty of deer, moose, caribou, and other animals at certain seasons, the trader during two days travel around the Peace River, and the Indians, during winter, on one or two occasions, are sometimes met with, but with the exception of trapping, they have no traps.

After about October 15th the hills are partially frosty and are not safe for travel, and the Indians do not end their traps on the beginning of April. But six miles per year are received at the Forks, four arrive during the winter, and the Indians come from Grande Prairie and Hesston's Hope, and one of Christmas and another of March, and the Indians, who are a government telegraph and a post of the D.G.C. The Indians traps are set, and the Indians have a post at this point, but closed it during the past year.

Traveling to Findlay Forks via the Peace River, the Indians are living all the way with the exception of the Canyon at Hudson's Hope, round which the Indians have traps set, and this point on to the Forks, with the exception of two small rapids, the stream is clear, but there are evident

traces of no great amount as gas bubbles, though this season under way.

The Peace River is low, states the trader, there is no hindrance to water construction, though this head of the river is low, and the water is not far distant when Findlay Forks will be in closer touch with civilization.

Union Church Notes

On Friday evening, Oct. 28, the Women's M. E. Society will hold its annual Thanksgiving meeting in Mrs. McMillan's home. Rev. David Smith, M. A. of Central India, will be the speaker. As this affords an opportunity to get first hand knowledge of conditions in India, we would like to extend a very special invitation to the congregation. Mr. Smith spent fourteen years in that great land and is well equipped to present a true picture of the situation in that part of the British Empire.

On Sunday evening, Oct. 30th, the Social Service Council will be busily engaged by the pastor when a special collection for the work of the Canadian Red Cross will be made.

The rector is relieving the Rev. Canon James at St. Stephen's Church, Calgary.

Get Busy

Over half of our orchard of apples is sold already, the balance will not last long. If you want good apples please do not delay in getting them at the Pioneer Market.

Have You Anything to Sell?

Every half an auction sale is held in our Gleichen, so as auctioneers are asked to sell for people a few articles which they wish to dispose of. We appreciate this business but we feel that effect sold this way do not sell to advantage as they must be left until the auctioneer has sold all the articles, for whom we are called to conduct the sale, are disposed of.

It is true that in every home in Gleichen and district there are one or more articles that are stored away or laying around only in the way that might be taken in the case of a fire. It is for this reason that we are calling on you to sell on Saturday, October 22nd, and would ask you to look around your place and see if you may not have something that someone might use to advantage.

We have secured a sheet at the rear of the Gleichen fair stand so that you may sell your articles and will all be under one roof.

Those wishing to avail themselves of this opportunity to dispose of surplus goods will please let same with Mr. E. L. Mallory as early as possible in order that same may be numbered.

Horses and cattle offered for sale must be held ready by the brander, ready three hours before the sale starts.

T.H.BEACH, Auctioneer
F.L.MALLORY, Clerk

Tenders For School House
